Business/Industry Description

Application Description

Food Sanitary Application

Yes

No

Design Conditions:

Process Air Flow

Inlet Temperature

°F

Moisture Content

Outlet Temperature

°F

Other Information

Installation Location

Indoor

Outdoor

Emissions Requirements

NOx

CO

Other (specify)

Customer Design Requirements:

Material of Construction

Process Air Pressure Drop Constraints

304SS

316SS

Other

Operational Information:

Process Operates

hrs/year

shifts/day

Cost of Energy

Type of Fuel

Process Stream Contents

Corrosive Materials

What

Concentration

Particulate

What Type

How Much
