

ProFi

Product finder ProFi

- A convenient way to search through 20,000 products
- Filter function to restrict the search results
- Detailed user instructions with animations
- Product drawings with dimensions, switchable between mm and inches
- Product description comparisons, with differences highlighted in red
- Document library (Docuthek) to call up for a selected product

The ProFi user interface

Application

How can I find the right product from a choice of 20,000? ProFi helps you achieve this.

Enter up to 3 search terms, which can be combined; for example, a search for "AKT" + "TAS" will find all manual valves with thermal equipment trip. In the background, a filter is configured to help you to restrict the search further.

Select similar products from the list, mark them and compare the descriptions, where the differences will be highlighted in red.

If you are searching for a discontinued product, ProFi will suggest its successor.

For almost every product there is a drawing with dimensions, which can be switched between "mm" and "inches". Should you need further information about a product, you can find it in the Docuthek document library which is also on the DVD.

You do not need to install any software on your computer.

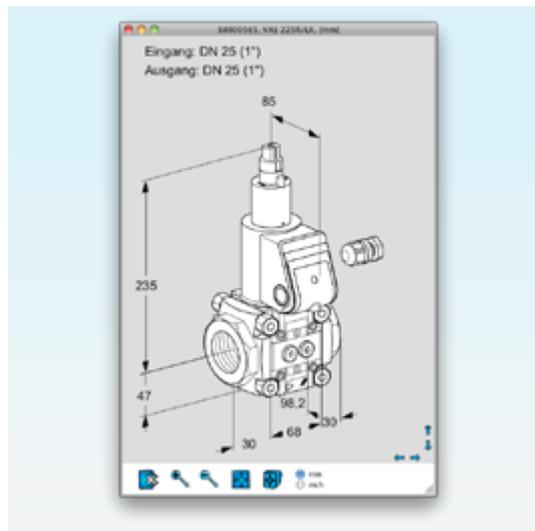

The available software and documents are checked for viruses.

Helpline

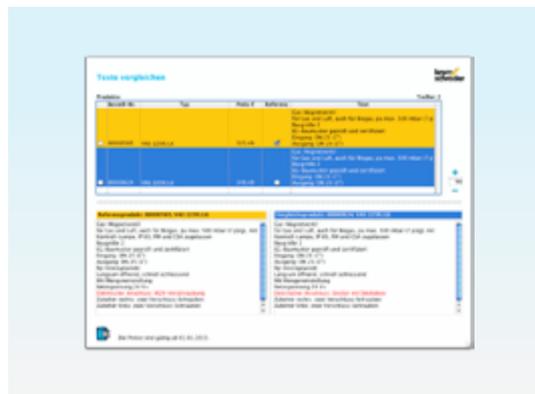

If you have any further questions, please contact:

Michael Rehkamp,
Tel. +49 (0)541 1214-498.

E-mail: michael.rehkamp@elster.com

Dimensional drawings also available to download, with dimensions in mm or inches

When comparing similar products, differences are highlighted in red.
