The user interface of PartDetective

Application

The Elster Kromschroder PartDetective is an extensive database that enables users to call up all Kromschroder spare parts and their order numbers and to use them to compile orders or inquiries.

The Search function allows you to search specifically for particular products or spare parts. The more detailed the search terms, the more precise the result. The spare parts list and spare parts drawing can be printed out for any selected product. Any parts that are highlighted can be copied for use in Word/Excel or e-mail.

By means of a direct link to the document library (Docuthek), you can receive further information about your selected product.

You do not need to install any software on your computer.

The available software and documents are checked for viruses.
