

Commercial/Industrial Combustion Product Overview

Flame Detectors To Fit Every Application

C7027, C7927, C7961 Detectors

Ultra Violet, Traditional UV Tube and Solid State

- Minipeeper
- Dynamic Self-Check(mechanical shutter)
- Adjustable Sensitivity
- Detects UV radiation emitted by combustion flames
- For supervision of gas, oil, or combination burners

C7915 Detectors

Infrared Detector

- Detects infrared light emitted by combustion flames
- For supervision of gas, oil, coal or combination gas-oil burners
