

Top Reading

Index for diaphragm gas meters

Applications

The "Top reading" index is suitable for diaphragm gas meters, which are mounted in inaccessible areas such as in shafts.

Brief information

The design of the index window allows the reading of the count of the meter from above.

Additional the index can be sealed effectively against the ingress of water and dirt. It can be combined with the domestic diaphragm gas meters of the BK series.

Main features

- Readout from above
- Protection class IP 53
- Suitable for BK-G2.5, G4 and BK-G6
- Pulse sensor retrofittable
- MID conformity

Optional

- Protection class IP 67
