

7800 SERIES 203541 5-Wire Electrical Connector

Application

The Honeywell 7800 SERIES is a microprocessor-based integrated burner control for automatically fired gas, oil, coal or combination fuel single-burner applications. The 7800 SERIES is programmed to provide a level of safety, functional capability and features beyond the capacity of conventional controls. Functions provided by the 7800 SERIES include automatic burner sequencing, flame supervision, system status indication, system or self diagnostics and troubleshooting.

The **5-Wire** Electrical Connector provides electrical connections for data communications and remote reset for the 7800 SERIES Relay Modules.
